COVID-19 Medical Exemption Form

Colorado Law C.R.S. § 25-4-902 requires all students attending school in the State of Colorado to be vaccinated against certain vaccine-preventable diseases (i.e. Measles, Mumps, Rubella) as established by Colorado Board of Health Rule 6 CCR 1009-2, unless an exemption is filled. While the Board of Health does not currently require vaccination against COVID-19, Otero College requires that students to be vaccinated against COVID-19, or receive an exemption, to access in-person learning and support services, live in the residence halls, participate on college athletic teams, or to participated in designated health sciences programs.

If granted an exemption, students*:

- May be required to participate in weekly COVID-19 testing as directed by Otero College;
- Must monitor College email daily for important health notifications;
- Must isolate for a period of time as required by local health department regulations if they test positive for COVID-19; and may have to quarantine for a period of time per local health department regulations if determined a close contact.

**These requirements are subject to change based upon available and emerging epidemiological evidence and the overall burden of disease related to COVID-19 transmission on our campus and in our region.*
